It does not measure which format produces better learning, and it does not explain why each learner chose an option.
වැඩිම පිරිසක් තෝරාගත් විකල්පය සියලු දෙනාගේ හෝ බහුතරයකගේ කැමැත්ත ලෙස නොදැක්විය යුතුය.

Try it yourself

1. Write a slide title stating the main finding accurately. Give one numerical comparison.

2. Prepare a response to: Does this prove everyone should work in pairs?

3. Plan three concise slides: question, finding and next step. Add a short spoken transition that introduces the limitation before the recommendation.
